March For Life
CAC respects all life!

Service Project
Items for the Elderly

Contests
Congratulations, Kit

Welcome!

“Welcome one another, therefore, just as Christ has welcomed you, for the glory of God.” Romans 15:7

Our Mission Statement states that Conn-Area Catholic School is committed to instill and encourage a deep relationship with the Lord. We believe each child is created with unique talents and intellect that will fulfill God’s plan for him or her. Thank you for allowing us to help develop these God-given gifts.

PK

THE GIFT OF LIFE

THANK YOU GOD FOR LIFE!

2

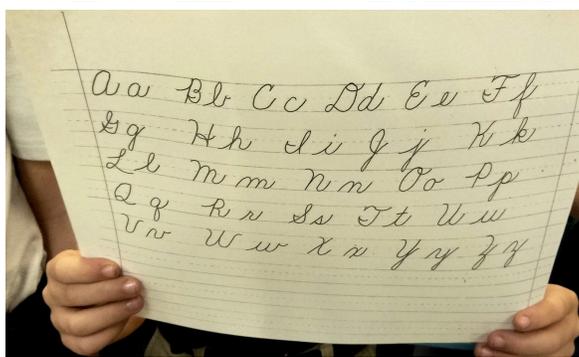

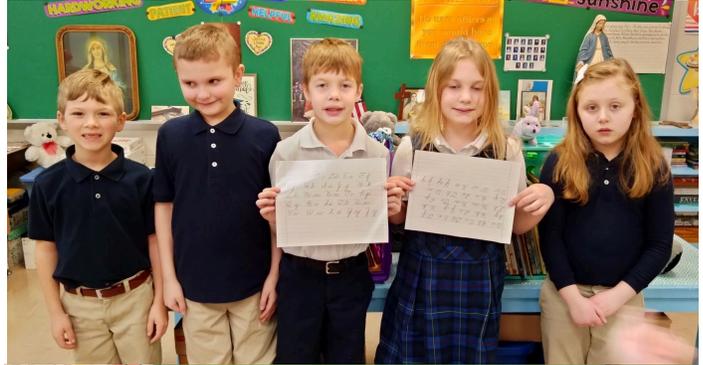

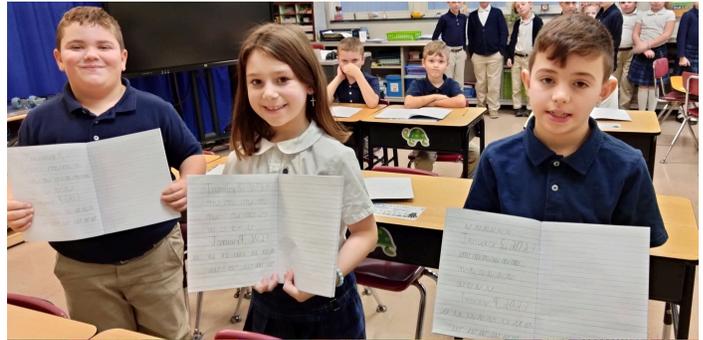

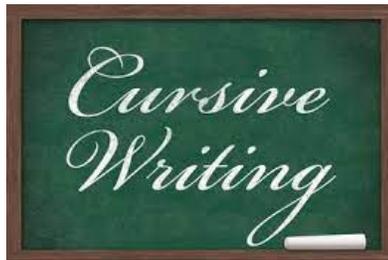

CURSIVE

When can we write our names?

3

STREAM

Would you ride it?

Greetings from the second graders. They are excited about learning handwriting or as we like to call it cursive. We have been practicing our lower-case letters and making words. How different it is from printing. In printing you do not connect the letters and in cursive, of course, you do. They have name tags on their desks with their names in cursive. Yes, they cannot wait to write their names. Well, we need to finish the lower-case letters and it will be wonderful to see them write the upper-case letters and then practice writing their names. How they love to learn! God bless you and those that you love.

LIFE IS A PRECIOUS GIFT

Each Conn-Area Catholic preschooler is a gift from God. As they shared their thoughts on God's gifts, it was evident that these children are aware of and appreciate these unique gifts.

Following are some of their shared thoughts on what is a precious gift from God: "hands", "eyes", "feet", "heart", "hair", "legs", "ears", "head", "cheeks", "body", and "smile".

The preschoolers proudly presented their "Thank You, God, for Life" banners in the Conn-Area Catholic March for Life.

The fifth graders have been working hard in all their classes this winter, but they were really on a roll in STREAM! They planned and constructed roller coasters using materials such as cups, paper tubes, index cards, pipe cleaners, and popsicle sticks. When they finished, they sent a marble for a ride! Each group tried to make their coaster as long as possible so the marble would take longer to reach the cup at the end. They all had their ups and downs, but the coasters passed with flying colors!
